

## MDT AutoSave Feature Set Comparison to:

- Rockwell Asset Center
- GE Proficy Change Management
- PAS Integrity (Primarily a DCS Based Solution)

Basic Feature Set				
	MDT AutoSave	Rockwell Asset Center	GE Proficy	PAS Integrity
In Development = D Unlimited = U RSLogix PLCs Only = L1 Siemens Devices Only = S1 *PAS is designed for DCS Systems, Not PLCs.				
Brands of PLCs Managed by the CMS	10	1	5	0
Approx Number of Editor Packages supported	37	5	20	0
Ability to manage multiple sites on one system	Y	N	Y	N
Universal Application Management by User	Y	N	N	N
Parallel processing agents to reduce network bandwidth	Y	N	N	N
Differing PLC Software versions on each Agent	Y	N	N	N
Advanced Reporting	Y	Y	Y	Y
On demand comparisons to running processors	Y	L1	Y	N
21 CFR Part 11 Compliance - Validated as an option	Y	N	Y	N
Advanced Wonderware Application Server Functionality	D	N	N	N
Advanced Citect Functionality	Y	N	N	N
Uses Vendor Software to natively handle comparisons	Y	L1	N	N
Supports segregated network architecture	Y	N	Y	Y
Scheduled comparisons and email notification	Y	N	Y	N
Privileging system to manage access to programs and program areas	Y	Y	Y	Y
Reverse engineered software used for upload/download	N	S1	N	N
Scalable to 10000+ devices on one system	U	?	?	?
Status Indicator of activity during demand comparison	Y	N	N	N
Ability to compare last known version to running processor	Y	N	Y	N
Ability to set up 'Compare Groups' for managing parameters	Y	N	N	N
Support for changeable named versions	Y	N	N	N
Time Scheduled Uploads	Y	N	Y	N
Any Version to Processor Compares	Y	N	Y	N

WingTip is the first choice for process and discrete manufacturing performance improvement software. Serving the Western United States and Canada, WingTip is a delivery organization for the best of breed products in Manufacturing Performance Management, OEE (and other KPI improvers), Risk Management, Safety and Operations Cost Reduction.

At WingTip we have fine-tuned the science of looking for PRACTICAL innovation. We are constantly striving to locate and provide unique solutions for our customers. We aren't married to any technology, and are constantly on the outlook for technology that can improve our customer's performance in the process and discrete manufacturing arenas. WingTip is comprised of industry experts who've been in the industry, know the challenges and whose only goal is the customers benefit.

When WingTip applies innovation for your company, we help you infuse new ideas and ways of doing things into your organization; this improves your business, and often accomplishes the improvement without major disruptive change. WingTip takes a full circle business approach covering process, delivery, business and technology software and services that help you increase speed, quality, availability, visibility and risk / safety management while decreasing costs.

**MDT AutoSave Feature Set Comparison to Rockwell Asset Center, GE Proficy Change Management, PAS Integrity (Primarily a DCS Based Solution)**

Advanced Functionality Available				
	MDT AutoSave	Rockwell Asset Center	GE Proficy	PAS Integrity
Connects Directly to Device, Unattended Uploads, Detailed Comparisons = 1				
Connects Directly to Device, Unattended Uploads = 2				
Connects Directly to Device = 3
